

HAPPIEST Token Whitepaper

HAPPIEST is a community-driven Solana token with SAFU-grade protection. The token features a fair launch, liquidity lock, and transparent tokenomics.

Tokenomics:

- Total Supply: 1,000,000,000
- Liquidity: 85%
- Developer: 10%
- Marketing: 5%

Liquidity is locked for 30 days to ensure investor confidence.

Anti-whale and anti-dump systems are implemented at contract level.

Roadmap

- Token Deployment
- Website Live
- Listings on DEXTools & CoinGecko
- Community Growth
- Airdrop Events
- Partnership Announcements

Reviewed by SmartContract Scanner v3 - Grade: A
